PRESCHOOL PROGRESS UPDATE

Hello wonderful families,

Our beautiful preschool is coming to life, and we're so excited to share where we're up to!

We are aiming to open in the very first week of February. We are just waiting on our final approvals to make sure our preschool is perfect for our little learners.

If things take a little longer, don't worry, we'll kick off free playgroup sessions so your little ones can explore the space, meet our lovely team and start feeling right at home.

We'll keep you updated every step of the way.

Thank you for being on our waitlist, for cheering us on and for your incredible patience and support.

We truly cannot wait to welcome you and your children into Miss Parker's Preschool very, very soon!

Opening Goal: First
Week of **February**
Pending all final
approvals.

If there is a delay...
We will begin
FREE playgroup
sessions so your
little ones can:
Explore the space,
meet some of our
teachers and feel
comfortable.

THANK YOU!
We appreciate
your patience
and
support. We can't
wait to welcome
you soon!

"A beautiful
childhood,
thoughtfully
prepared for
what comes
next."

SILLY SENTENCE BUILDER

This simple activity encourages early literacy & imagination.

What you need: just words and laughter

1. Take turns starting a sentence:
"The cow went to the..."
2. Let your child finish with something funny
3. Keep going to create a silly mini story together

This fun activity builds sentence structure, vocabulary, rhyming and humour. At Miss Parkers Preschool we believe the foundation of writing begins with spoken language and a rich bank of vocabulary.

EARLY LITERACY SPOTLIGHT

WHY WE SING, RHYME & TALK MORE

These joyful interactions are not just fun, they are doing powerful work:

Rhyming and singing help children hear patterns in language, which is essential for learning sounds (phonological awareness)

Conversation-rich play builds vocabulary, comprehension and confidence, the foundation of future reading

Silly sentence play and sound games help children tune into beginning sounds, preparing them for phonics

Storytelling and repetition strengthen children's memory and sequencing, which leads directly to writing and storytelling later on.

FROM OUR PRESCHOOL FAMILY TO YOURS, WARM WISHES FOR A MAGICAL AND MEMORABLE HOLIDAY SEASON.
